

Advanced Dermoscopy 2022

Invitation & Programme

Thursday 17th March 2022
Cavendish Conference Centre, London

Thursday 16th October 2022
Manchester Conference Centre, Manchester

Previous course attendees have said

"Possibly the best course I have attended in 20 years as a GP"

"Dr Bowling is an exceptional speaker as well as enthusiastic about sharing his vast experience and knowledge with others"

"Clear speakers who are obviously at the top of their game. Enjoyed the humour too"

Advanced Dermoscopy

The PCDS and Dermoscopy UK have been running Advanced Dermoscopy courses for over 10 years making them the longest running and most highly regarded dermoscopy courses in the UK.

The courses are regularly adapted and modified to create an in depth, up to date and unique learning experience relevant to UK clinical practice. The varied course content, from concise lectures, clinical case scenarios, case discussions and quizzes generate excellent delegate feedback. An additional value from our education is the real term clinical outcome gained from translating the information learned during the course into meaningful improved clinical efficiency.

Jonathan Bowling has shown increasing clinical efficiency is possible, within a busy NHS skin cancer service, by improving clinical diagnosis with dermoscopy.

He has published results in diagnostic accuracy comparable to the World's best cancer centres.*

The results have shown that with expert experience in dermoscopy you can improve clinical performance within the clinic to:

- reduce unnecessary surgery
- diagnose skin cancer earlier
- improve economics of delivering a skin cancer service

Increased diagnostic accuracy leads to increased cost efficiency leads to improved patient care.
